Did you know that kindergarten is not required in the state of Missouri? While it may be optional, most education experts agree that kindergarten plays a critical role in early literacy development and lays the foundation for long-term academic success. In St. Louis City alone, families face a complex educational landscape with more than 150 K–12 school options across public, charter, and private sectors. As a result, many parents are overwhelmed by the decision-making process, and some are choosing to leave the city altogether. One of the top reasons cited for relocation is the perceived difficulty in finding high-quality schools and safe, enriching experiences for their children.

As our city continues to evolve and our region grows, Navigate STL Schools remains committed to helping families find school communities that celebrate their children and cultivate a lifelong love of learning.

When we launched our website, navigatestlschools.org, in 2020, we set out to address the lack of clear, accessible information about St. Louis City's school system, across public, private, and charter options. However, we soon discovered that families in St. Louis County were also facing significant challenges. From deciding where to move, navigating the Special School District, to determining eligibility for private school scholarships, parents throughout the region were in need of support and guidance.

The fragmented nature of the education system is not only creating stress for families, it's also impacting student outcomes. These disparities are particularly evident along lines of race and socioeconomic status, leading to academic setbacks for some and missed opportunities for others.

At Navigate STL Schools, we believe that every family deserves access to accurate, comprehensive information about all available school options and educational resources. By centering this knowledge and improving access, we aim to ease the burden on parents and connect more families to supportive, inspiring school communities, ultimately helping our entire region thrive.

This guidebook will help you stay organized while applying to Kindergarten. Use the School Search Tool to complete a search guided by your priorities. Depending on what type of school you intend to send your child to, some items may not apply. You want to start preparing for the application process at least ONE YEAR ahead of time as some application deadlines can be as early as November the year prior to when your child would enroll in kindergarten.

What is Navigate STL Schools?

We have a network of specially trained and local School Navigators that can answer questions, provide resources, and support you throughout the entire process.

Why do I need to start looking into Kindergarten now?

If you wait until the spring before the deadline, you may miss application deadlines at schools.

How do I know which school to send my child to?

Part of the school search process is learning about several main types of schools such as Public School Districts, Public Magnet/Choice Schools, Private Independent Schools, and Private Faith-Based Schools. Learning about the differences can help inform your school choice decision.

What if I am going to move?

We can help you locate a school in your new area within the St. Louis region.

Isn't my preschool going to help us with this?

After completing the preschool program your child will need to find placement for kindergarten. We can help.

How much does this cost?

Our services are free: enrollment and application support, school search tools, free individualized support, and advocacy tools and resources.

What are parent workshops, navigator appointments and follow ups?

Parent workshops provide general information about us, our website, and resources. Navigator appointments provide one-on-one appointments addressing your specific wants and needs. Navigators will follow up after to help with questions and support as you research and choose schools.

KINDERGARTEN TOOLKIT: KEY TERMS AND DEFINITIONS

- Application: The form a parent or guardian fills out to enroll a child in an elementary school.
- **Enrollment:** The process by which students are officially registered and counted as attending a school. This process is separate from the application process.
- **Kindergarten Readiness:** The things a child should know and be able to do when they enter Kindergarten. In addition to this we include the skills parents need in order to enroll in the kindergarten program of their choice.
- English Language Learner (Limited English Proficient): Students who were not born in the united states or whose native language(s) are not English come from an environment where languages other than English are dominant.
- Individualized Education Plan (IEP): a written plan created for a child in school who has a disability. It explains the specific help and support the child will get to learn and succeed. privately funded school that is run by a faith-based group or organization.
- Assesment: Are used to gauge student progress, understand learning, and guide instruction.
- Standardized Test: A type of exam where every student answers the same set of questions from a common pool.
- · Academic Growth: Compares the progress of an individual student to the state average.
- Missouri Assessment Program MAP: The standardized testing program the state uses to assess student progress in public schools. Student performance from the tests is reported in terms of four achievement levels (Below Basic, Basic, Proficient, and Advanced).
- Below Basic: A level of understanding that indicates a student is below the minimum level required to demonstrate basic competency in a specific subject or skill.
- Basic: A level of understanding or skill that indicates partial mastery of the knowledge and skills.
- **Proficient:** A level of understanding that indicates the student has a good understanding of a specific subject or skill and can apply them to solve problems.
- Advanced: level of understanding that indicates mastery beyond the expected level for a specific subject or skill.
- Phonics: A way of teaching children how to read and write. It helps children hear, identify, and use different sounds.
- Phonics Awareness: The ability to hear and recognize individual sounds within words.
- Social Emotional Learning (SEL): The ability to manage emotions, understand social cues, and build healthy relationships with those around us.

Approximate Kindergarten Cut Offs

A child is eligible for admission to kindergarten if the child reaches the age of five (5) before the first day of August of the school year beginning in that calendar year.

Birthday Prior to	Start Date	Apply by
Aug 1, 2021	2026 - 2027	Fall 2025
Aug 1, 2022	2027 - 2028	Fall 2026
Aug 1, 2023	2028 - 2029	Fall 2027

Check out the age calculator!

On the first line input your child's birthday.

On the second line input the school start date.

Different School Types

Public

Also known as neighborhood schools, any student living in the geographic boundary of the school is allowed to enroll in this school. There is no application necessary to attend this type of school.

Charter

Charter schools are independent of schools in St. Louis Public Schools (SLPS) and have a variety of enrollment types. Some are open to any child living in the city, whereas others may require the student to live in the school's established attendance zone.

Magnet

Magnet schools follow a particular theme, like the arts or Montessori, and require students to submit an application and be accepted prior to being able to enroll.

Private

Private schools are independent of the state and city school boards. They do not receive public funding and charge tuition to cover the expenses of educating children.

What is an IEP?

Not all students who have disabilities require specialized instruction. For students with disabilities who do require specialized instruction, the Individuals with Disabilities Education Act (IDEA) controls procedural requirements, while an Individualized Educational Plan (IEP) is developed. This process is overseen by the Department of Education

- An IEP includes specialized education services, accommodations, modifications and related services
- The (IEP) can be a plan or program developed to ensure that a child who has a disability identified under the law and is attending a K-12 educational institution, receives specialized instruction and related services
- The process begins with an evaluation that shows a student's strengths and challenges
- The family and school then use the results to create a program of services and supports tailored to meet the student's needs
- · An IEP is can be offered through the 12th grade, or until 21 if required

What is a 504 Plan?

Under the Civil Rights - Rehabilitation Act of 1973, a 504 plan is for anyone with a disability that does not require specialized instruction, but needs assurance that they will receive equal access to services such as public education. This process is overseen by the Office of Civil Rights.

- Similar to an IEP, a 504 plan includes accommodations, modifications and related services that should be updated annually to ensure the student is receiving the most effective accommodations for their individual circumstances. **However**, a 504 plan is not just for educational purposes.
- It can be used for work, as well as school
- Unlike an IEP, a 504 plan does not have an age limit, and eligibility / plan creation occurs at every institution
- Note: Any student with any disability, qualifies for a 504 plan. While students seeking an IEP must fit
 one of the IDEA disability categories

KINDERGARTEN TOOLKIT: SPECIAL EDUCATION SERVICES

As a parent/guardian you have the right to make a referral for special education services. There are many reasons that a parent may want to refer a child. Some examples could include ADHD, vision and hearing problems, autism, cognitive challenges, developmental delays, emotional disorders, learning problems, physical disabilities, speech or language impairment. There are 7.2 million students or throughout the U.S. receiving special education services.

You will request an evaluation by reaching out to the special education department at your child's school district (see next page for contacts).

If the special education department agrees that there is reason to suspect a disability then the special education department will evaluate for the following:

- 1. If a student has a disability according to the established Missouri criteria (page 14 of the <u>Parent's Guide to Special Education</u>),
- 2. If the disability adversely affects his/her performance in the general education curriculum, and
- 3. The student's need for and individualize lesson plans (IEP) and special education services.

Based on the evaluation, the IEP team and the parent/guardian will decide if the student is eligible for special education.

The IEP team, with parent's input, will create an IEP. An IEP lays out the special education instruction, supports, and services a student needs to thrive in school (example: extra time on test, visual aids, speech).

► Receive Services

Services designated in the IEP will be implemented by the student's classroom teacher and other school professionals. STL ARC has family support services for those living with disabilities.

Each year the IEP will be review and revised to ensure yearly goals are being met. The IEP can be reviewed and changed more often if the parent or school staff asks for a review.

Special education services create supports that ensure your child's success at school.

A diagnosis is not a label. It is a collection of symptoms presented. A diagnosis allows the school to implement techniques that will help your child be successful at school.

IEP's should remain confidential. Reach out to your school counselor if you have concerns about others finding out about your students IEP.

Charter Schools

Charter school are required to provide special education services. Each charter school has their own process for evaluation. Some schools have in house special education departments, some utilized community/private services, and some use a combination of both. Check with the school you are attending or interested in.

Private Schools

Private schools are not required to provide services. You should reach out to the private school you are interested in to get more details about how they support and include students with special education needs.

navigatestischools KINDERGARTEN TOOLKIT: GIFTED AND TALENTED

In Missouri, school districts and charter schools may establish programs to meet the needs of students whose needs are not met in existing school programs because of their precocious capacity and learning potential. Gifted and talented students require a unique academic environment to meet their learning needs so they can make continuous progress. They need curriculum that will challenge them in all classroom settings; enrichment; accelerated learning opportunities; and appropriate social and emotional support.

Gifted learners need services provided by well-trained teachers, who challenge and support them, in order to fully develop their gifts and talents.

1 Programming

Registered DESE Gifted and Talented Program are schools that have an approved plan on file with DESE. Some schools may have rogue (in-house) programs that have not been registered.

2 Referral

Parents and teachers can refer a student for gifted and talented testing by reaching out to the schools gifted and talented program.

3 Screening

Registered programs will screen 100% of student population using a state approved assessment. About 10% of the population will be selected to do a one on one assessment.

4

Results

About 5% will be selected to participate in the school's gifted and talented programming.

Districts with a gifted program must have a process that outlines the procedures and conditions under which a child does not qualify to recive services.

Characteristics of Gifted Students

- Intense and sometimes unusual desire to learn
- Picks up on humor
- Effective and inventive strategies
- Questions, experiments, explores
- Has a lot of information on school or non-school topics
- Produces many ideas, highly original
- Quickly grasps new concepts
- Makes connections
- Logical approaches to figuring out solutions
- Expressive (with words, numbers, or symbols)

HOW TO START YOUR KINDERGARTEN SCHOOL SEARCH

RESOURCE KIT

It's never too early to start looking at what schools in St. Louis City can provide for your incoming Kindergartener. You may choose your designated neighborhood school, or consider other schools based on the special programs or unique offerings they have. Here are 4 things we highly suggest thinking through as you start your school search.

- 1. Determining your child's specific needs and the type of education you are looking for. As their caregiver, you know your child best. You know their personality, how they learn, and what environment would be best for them to thrive. All of these are important things to have considered prior to searching for schools because this will help you know what you are looking for and what is non-negotiable for you and your family. We have a Priorities Worksheet available that you can complete prior to starting your search. You can also schedule a FREE Navigator Appointment where they will guide you through completing the worksheet.
- **2.** Taking the time to research the different school types available. The 4 main options in the St. Louis City area are public, Magnet-Choice, public charter, and private-independent schools.
 - Public schools make up the majority of the school options in the city, neighborhood schools which means that depending on where you live, you are "assigned" to go there.
 - Within the public school, there are also Magnet-Choice schools which include the Gifted and Talented program and other educational programs with a special focus. These programs can require additional testing and application processes so account that in your timeline, this process could start a year prior to when your child would start school.
 - Public charter schools are independent of public school districts but are open to any child that lives in the city and they do not have tuition. They all have slightly different application processes and deadlines so make sure to research those.
 - Private independent schools are independent of the state and do not get public funding so they
 are tuition-based. Some private schools are faith-based and others are not. Click here to learn
 more in-depth about the different types of schools on our website.
- 3. Familiarizing yourself with different enrollment processes. Neighborhood schools have an open enrollment which means that you are guaranteed a spot based on your address. Other schools require an application and may have a lottery which means that students who apply by the deadline will get randomly selected for a spot. Lastly, selective enrollment admits students based on merit and these usually require an entrance exam and/or an interview. Keep in mind that with both Lottery and selective enrollment processes deadlines can vary and some are as early as November the year prior to when your child will be starting Kindergarten.
- 4. Scheduling a FREE School Navigator Appointment. Navigating the school search process can be tough, but our School Navigators are here to help you understand all of your school options. Navigators are available to talk in person or virtually throughout the week and weekend.

navigatestischools Questions to Ask on a School Tour

Things to Observe (what you see)

Physical Environment

- Do you feel safe when walking up to the school?
- · Is the building clean, inviting, and free from clutter?
- Is it easy to find the main office?
- How much outdoor space is available to the children during recess?

Classroom arrangement

- Do classrooms appear clean and engaging?
- Are classrooms organized with clear signs and procedures?

Technology

- What technology is available in each classroom?
- What technology is available in the building?
- · How often do students use technology?

Cafeteria

- · Is it clean?
- If observing during breakfast or lunch, what is the feeling you get while watching students eat? Is it orderly or chaotic?

Library

- Is the space filled with books that represent the identity of your child?
- Are there places for independent reading?
- Is there a staff person in the library and are they a full or part-time employee?

Support staff (nurse, social worker, counselor)

- · Who is available to support your student outside the classroom teacher?
- Are these staff members full or part-time employees?
- How accessible are they to parents?

Things to Feel (how the school environment makes you feel)

Staff interactions with students

- · What is the tone staff use with students?
- Does it seem appropriate for the age of the student?
- Do you see evidence of care and compassion for students?

Staff interactions with you as the parent

- Are you welcomed by a specific person when you enter the doors?
- Are your questions treated with respect and fully answered?
- Are you given enough time to ask all of your questions?
- · How do staff make you feel?

Visual feeling of the building

- · Is it clean?
- Are there images that represent the identity of your child around the school?
- Is there student work or art on the walls?

Questions to consider asking school staff on a school tour

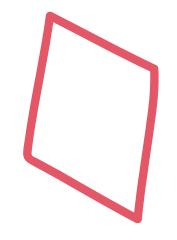

- What supports are available for supporting student emotions?
- What is the goal, philosophy, or theme of the school?
- What are areas of growth for the school?
- · What are areas of success for the school?
- · How long have you been at the school?

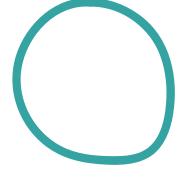

Questions for your child to consider asking if they are doing a shadow visit

- How do your teachers treat you?
- How do you learn about grades in different classes?
- How challenging are your classes?
- Is there a culture of support between students?
- What do you like about the school?
- What would you change about the school?

Questions to consider on a private school tour

- What is the full cost to attend the school?
- · What sort of scholarships or financial aid is available?
- · How many students receive scholarships?
- For religious schools, if you are a member of the affiliated religious institution, is there a discount for tuition for my family?
- Do the scholarships renew annually or do you have to reapply?
- What is the process to receive financial aid? What documents are needed?
- How soon will I know if I will receive financial aid?

Does your child have an Intellectual or Developmental Disability?

We Can Help Prepare Your Families for Kindergarten

Navigate STL Schools is the #1 source for your families as they begin navigating the school search process in preparation for Kindergarten. Our goal is to empower families to select: a school that continues the path they've started with you and enables their child to thrive. We provide unbiased personalized support, provide resources, and host a variety of workshops throughout the year. We also partner with local organizations with the shared mission of bridging equity gaps in the city to help you further expand your resources and offerings.

START NOW!

Application deadlines around St. Louis can come as early as October the year prior to starting kindergarten, and some programs fill up quickly. Additionally, some schools and programs require testing, paperwork and other steps in order for the application to be complete. Let us help your families get a jump start on this process now!

WHAT WE OFFER

- School Search Tool with 125+ schools in St. Louis City listed on our website, including all schools that report to DESE
- Group Presentation or individual Support
- 1:1 Support from our School Navigators
- Dozens of resource and tool kits to help you navigate the school search process

WHY NAVIGATE?

Parent Presentations

We host group presentations to help set the stage for everything your families should know as they begin to navigate the St. Louis school landscape.

Free Resources

We have a resources and tool kits to help your families prepare to navigate the school search process and identify the best school to smoothly transition to the next step of their child's education journey.

Staff Support

We offer training of our School Search Tool and Elementary Preparedness resources for your staff so they can offer preliminary support families throughout the process.

KINDER-READINESS RESOURCES:

- FREE School Navigator appointments to support your families in identifying priorities, using the Navigate STL Search Tool
- The Kindergarten Timeline to help your families stay on-track with deadlines and requirements
- The Kindergarten Readiness Checklist to help stay organized while applying to Kindergarten

TAKE THE NEXT STEP!

Schedule time to request additional resources, host a parent meeting, or a staff training to complement your programming and prepare your families for Elementary School.

Call us at 314-408-2468 or email connect@navigatestlschools.org

Enrollment Process Resource Kit

Depending on what school you want to send your child to, there are different processes you will need to follow for enrollment. Some school enrollment deadlines are as early as November the year prior to when your child would start school, so it's important to check the school's profile on our website, as well as on the school's official website the fall prior to when your child will start school - as deadlines will vary.

This resource kit will help you learn about the different enrollment types, keep track of their main differences as well as the different district or school requirements, and manage what documents you will need to apply for each school once you have decided on your top three choices.

General Enrollment

- Allows any child to register as long as they live within district lines.
 - Exceptions might be available for families who have an older sibling in the school but no longer live within the district lines.
- · No admissions test is required.
- Accepts students at any time during the year.

Lottery Enrollment

- · Has an enrollment period when families can fill out an application with a deadline.
 - Sometimes a school/district with this type of enrollment process has multiple enrollment periods.
- Can have requirements that a child must meet to apply depending on the school/district.
- Does not need to hold a lottery if there is enough room for every interested or qualified student.
- Will begin its random drawing process on a specific day after the application deadline if a lottery is necessary, either handling the applications manually or using a computer program.
 - If there are multiple enrollment windows, there will be multiple lotteries.

Selected Enrollment

- Has an enrollment period for when families can fill out an application.
 - Students must meet the requirements set by the school to be admitted. They can include one
 or more of the following:
 - · A minimum grade point average or
 - A written essay and/or an interview
 - An interview or audition
 - Entrance exam
 - Other requirements established by the school
- Students are accepted based on all the requirements established by the school and typically families sign a contract committing to attending for the following school year.

Summary of the Different Enrollment Processes

Top 3 Schools Worksheet

Once you have done your initial research and have decided on your top 3 schools use this worksheet to help you organize the enrollment process for each school.

Type of Enrollment Residency Requirement		Admission Requirements	Selective Processes	
General	Yes	No	No	
Lottery Maybe		Maybe	No	
Selective	Maybe	Yes	Yes	

Our Family's Top 3 Schools

School Name	1.	2.	3.
Type of Enrollment			
Is there an interview or test?			
Application/Registration Deadline			
Required supporting documents (i.e. proof of address, immunization records)			

This checklist will help you stay organized while applying to Kindergarten. Use the School Search Tool to complete a search guided by your priorities. Depending on what type of school you intend to send your child to, some items may not apply. You want to start preparing for the application process at least ONE YEAR ahead of time as some application deadlines can be as early as November the year prior to when your child would enroll in kindergarten.

A BRIEF HISTORY OF

ST. LOUIS CITY EDUCATION

A GENERAL TIMELINE OF EVENTS THAT SHAPED TODAY'S PUBLIC SCHOOL SYSTEM. THIS LIST ISN'T EXHAUSTIVE, BUT REPRESENTS WHAT WE SEE AS SOME OF THE MOST PIVOTAL MOMENTS IN OUR CITY'S EDUCATIONAL HISTORY.

1838

The first elementary schools open in St. Louis City.

1855

The city's first high school is established. It was among the first coeducational high schools in the country. Within five years, it housed 301 students.

1875

St. Louis' first kindergarten is created.

Summer High School, the first high school for African-Americans west of the Mississippi, opens.

1954

Harris-Stowe Teachers' College forms, merging Stowe Teachers College for Black School teachers with the white St. Louis Public Schools counterpart. This is the first of several attempts to integrate the public school system.

1981

As a result of Liddell v. Board of Education, the VICC program begins – resulting in the creation of magnet schools, and more than 13,000 Black St. Louis City students bussed to predominantly white schools in St. Louis County. A smaller number of white students came into the city to attend St. Louis Public magnet schools. In 1999, a revised settlement agreement transformed this into a voluntary program to last through the 2023/24 school year, according to the current agreement.

2000

The first charter school opens.

2022

The Board of Education of the City of Saint Louis created an adhoc committee to explore the development of a Citywide Plan for education in St. Louis.

1833

The first St. Louis school board is established.

1847

Founder of First AA Baptist Church in St. Louis, John Berry Meachum, opens "Freedom School" in response to Missouri outlawing the formal education of African-Americans.

1860

Missouri School for the Blind is the first school in the Unitest States to adopt the new, revolutionary way for the visually impaired to read: the Braille system.

1948

Catholic schools in St. Louis integrate.

1972

Liddell v. Board of Education is initially filed on behalf of a Black student attending an overcrowded north St. Louis elementary school, and his entire class along with their teacher was bussed each day to south St. Louis to use an empty classroom in an all-white school. A new elementary school was constructed on the north side but was overcrowded immediately upon opening.

1988

Missouri becomes the 27th state to pass a charter school law.

2017

SLPS regains accreditation after losing it in 2007 and leadership being taken over by a state appointed board.

EACH SCHOOL TO LEARN MORE

ABOUT EACH SCHOOL CAMPUS

Our Mission - We see each child and support them on their individual pathways.

Our Why - To empower and support our students with meaningful relationships that allow them to thrive and become positive forcevs of change.

Brentwood School District is a highly rated public institution of learning located in the heart of St. Louis County and includes the City of Brentwood and portions of surrounding towns. The district covers just over two square miles, encompassing suburban neighborhoods, major retail areas, and businesses. Conveniently located centrally in the county, Brentwood School District is just minutes away from major universities, parks, and other attractions.

Brentwood School District is committed to ensuring all students in our care, as well as their families and our staff members, are treated with respect, love, and care whatever their race, gender identity, orientation, religion, or socioeconomic status.

As our mission states, we see each child and support them on their individual pathway. Racism has no place in our community, and we will not tolerate actions or words that make any members of the Brentwood family feel unsafe or uncomfortable.

JENNINGS SCHOOL DISTRICT

Mission - The mission of the Jennings School District is to ensure that each student develops a passion for learning through challenging curricula, rigorous academic standards, innovative, stimulating educational environments, and a passion that education is a lifelong pursuit.

Jennings School District has a long and distinguished history, extending back over 125 years to 1871. The School District of Jennings is located in North St. Louis County and is adjacent to the City of St. Louis. It is composed of three small townships, Jennings, Country Club Hills, and Flordell Hills, with a total population of approximately 20,000. The School District consists of ever 2,000 K 12 students. We have eight appeals and one alternative program. The district's appeals

over 3,000 K-12 students. We have eight schools and one alternative program. The district's schools are Fairview Primary, Fairview Intermediate, Northview Elementary, Woodland Elementary, Hanrahan Elementary, Rose Mary Johnson Junior High, and Jennings Senior High. Each school has a principal and an instructional specialist or coach supporting the implementation of a rigorous academic curriculum. Jennings also has an alternative program that supports secondary school students who need an alternative programmatic setting outside of the traditional secondary environment. The alternative program is the Jennings Educational Training School (JETS) whose goal is to inspire academic excellence and civic responsibility. The Jennings School District engages in the learning process with honesty, creativity, dedication, and respect, and seeks to cultivate an atmosphere of freedom and trust in a safe and nurturing environment.

KIRKWOOD SCHOOL DISTRICT

Our Vision - Every student - engaged, empowered and ready for success

Our Mission - To equip students with the skills, knowledge and understanding to be empathetic, successful, and to value all people.

In partnership with its dynamic communities, the Kirkwood School District has built a solid reputation as a district where students and their needs come first. Kirkwood schools and communities share a proud heritage and respect for tradition as well as a progressive attitude toward education for all children. District staff, parents and community members work together to provide innovative educational programs, which focus on ensuring every student is engaged, empowered and ready for success.

The District, chartered in 1865, is among the oldest in St. Louis County and one of the oldest west of the Mississippi River. Located in southwest St. Louis County

approximately 15 miles from the city of St. Louis, Kirkwood School District covers an area of 15 square miles and serves all, or portions of, eight suburban communities including Des Peres, Frontenac, Glendale, Huntleigh, Kirkwood, Oakland, Town and Country, and Warson Woods.

With sidewalks and tree-lined streets, many Kirkwood School District neighborhoods are within walking or biking distance of the district's five elementary schools, two middle

schools, and one high school. There is also a Kirkwood Early Childhood Center, which is a licensed and fully accredited early education center serving families with children up to age 10. The programs offered include preschool, early childhood special education and Parents As Teachers.

Westchester celebrated its 50th anniversary in 2007. In 2017, extensive renovations were completed in the Westchester Woods. These renovations were funded by donations from parents and the community and included adding an ampitheater, a Whale Watch ropes course element, a Naturescape area, reading benches, a Monarch Weigh Station and the reintroduction of native plants and trees. In addition to these enhancements, a Community Library was added to each of the playground areas and a Gaga Ball pit was added to the north playground. Finally, an under-utilized shed was renovated on the south playground and transformed in to a chicken coop where 13 chickens live and entertain students, staff, and members of the community. In early 2018, an indoor bee hive was added to the main foyer.

LADUE SCHOOL DISTRICT

Vision - Together, we will empower every student to become a passionate learner and achieve their highest potential.

- Set the standard for academic excellence in education for all students so they may have the foundation upon which to build productive, happy lives.
- Ensure all students are prepared and inspired to continue learning beyond Ladue Schools to be successful in the highest level attainable of post-secondary education.

- · Fostering the highest possible level of academic achievement and personal responsibility for each student.
- Recognizing and respecting all cultures.
- Challenging all students to excel in ways that nurture their individual talents and skills.
- Inspiring each student to become a responsible and contributing member of a global society.
- Planning for and managing financial resources to allow for the high-quality staff, instructional resources, and facilities required to promote learning.
- Developing a highly trained, innovative staff that can meet changing student needs.

Spoede Elementary School resides on 9.79 acres. In the 1930s, \$70,000 was spent to build Spoede Elementary. Prior to hosting a school, the land was home to a tree nursery. Then, in 1949, the Ladue School District annexed the Spoede Elementary School District and three other elementary school districts at their request. Spoede Elementary School was expanded in 1954, 1959, 1964, 1966, 2001, 2007, and renovated in 2022.

LINDBERGH SCHOOLS

Mission - Excellence in Learning. Designing the Future.

Vision - At Lindbergh Schools we are creating a better world through personalized, innovative learning experiences.

Lindbergh Schools is committed to helping students succeed not only in academics, but also in life. We prepare students for success through innovative instruction and a focus on collaboration, creativity, communication and critical thinking. This high-quality education for all students is propelled by strong community support, and a team of excellent teachers, support staff and administrators.

We believe that a diverse community of students, employees and families contributes to an environment where all are supported and individual strengths are developed. Each year, we serve more than 7,500 students at 11 different campuses, including one high school, two middle schools, six elementary schools and two early childhood education centers. We are home to eight National Schools of Character and six National Blue Ribbon Schools.

Mission - The mission of the Parkway School District is to ensure all students are capable, curious, and confident learners who understand and respond to the challenges of an ever-changing world.

Vision - Our school achieves excellence through hard work, caring relationships, and positive thinking.

For over 65 years, Parkway has enjoyed a reputation of excellence, recognized as a premier public school district in the Nation. We are honored that families and employees select Parkway based on our reputation for serving high-achieving students and a rich tradition of success and innovation.

We are committed to our mission of preparing students to be capable during college, their careers and throughout their lives. We delight in their curiosity in the classroom as they solve real-world problems. We see evidence of their confidence in athletics and fine arts. We are proud to see our students taking care of another, those in need, the environment and their community.

Mission - We do whatever it takes to ensure all students realize their potential.

Vision - Every student loves life and finds success.

Core Values - Our core values affirm what we stand for and how we treat each other. These values define who we are as a school district—individually and collectively.

Caring Schools - We find joy in our work and believe in kindness and mutual respect for all. We are guided by strong character, ethics and integrity. Our schools are warm, welcoming places where children, staff and families thrive.

Collective Responsibility - We share the responsibility for student learning, growth and safety. We honor differences as we provide equal access for all learners. In our community, we leverage our strengths to reach challenging goals for lifelong learning.

Optimize Resources - We support our students with a strong foundation. This means creating, maintaining and sustaining operational and organizational systems that are thoughtfully aligned to the needs of our schools and students.

Meramec's culture nurtures both the joy of learning and the satisfaction of achievement. The school community fosters the development of students who accept responsibility for their learning and feel supported in their ability to create positive futures for themselves.

THE SCHOOL DISTRICT OF UNIVERSITY CITY

Vision - Our students are well-educated, capable, and ethical citizens who positively impact society.

Mission - Ensure every student graduates college and career ready.

The School District of University City has a rich history, starting in 1868 when its first school opened, many years before the incorporation of the City of University City. On September 4, 1906, local freeholders saw the need to organize a school system. On February 21, 1911, with a city population of only 2,417 and a student enrollment of 160, The School District of University City was officially established. When school began in September 1912, the school population was 769 students.

The District has an impressive list of graduates, including Tenessee Williams, the rap artist Nelly, the social justice leader Mary Tinker, and hundreds of nationally-recognized doctors, lawyers, scientists, researchers, entrepreneurs, filmmakers, musicians, dancers, actors and visual artists.

The District has a vision of Learning Reimagined, a dynamic plan that strives for

- · Rigorous, relevant and modern instruction, because the world is changing rapidly
- · Well-being and joy, because we learn and teach best when we are well
- Excellent staff, supported by professional development opportunities, rich community resources, and performance feedback
- All hands, to leverage local, regional and national partners
- Resources, used wisely and equitably to support the vision

WEBSTER GROVES SCHOOL DISTRICT

Mission - Inspiring student's lives and communities through learning.

Our Principles

- · We ensure academic excellence and continuous growth.
- We promote a safe, inclusive, and equitable environment.
- · We nurture trusting and supportive relationships.
- We hear and value diverse voices and multiple perspectives.
- We prioritize personal well-being and the well-being of others.
- We empower lifelong learners to embrace challenges and explore creative solutions.

The Webster Groves School District has a legacy of learning that has flourished for over 150 years within the vibrant communities of Glendale, Rock Hill, Shrewsbury, Warson Woods, and Webster Groves. Our district is a dynamic ecosystem continually evolving to meet the diverse needs of our students. At our core is an unyielding commitment to inspiring lifelong learning—a fundamental value that permeates every facet of our organization.

We're passionate about providing an educational landscape that transcends traditional boundaries, offering practical, challenging experiences that mirror the real world. Beyond academic excellence, we cultivate a rich tapestry of opportunities, encouraging students to explore their passions and strengths. Flexibility and personalization guide our approach, allowing students to shape their educational journey. Together with families and partners, we prioritize the holistic well-being of our students and staff.

The Webster Groves School District—more than an educational institution, it's a vibrant, inspiring journey shaping lives and building futures.

First Steps is Missouri's Early Intervention system for infants and toddlers, birth to age three, who have delayed development or diagnosed conditions that are associated with developmental disabilities. The federal law governing First Steps is Part C of the Individuals with Disabilities Education Act (IDEA). The Department of Elementary and Secondary Education (DESE) is the lead state agency responsible for implementing the First Steps program. First Steps is a voluntary program that provides families the tools they need to help their child be successful.

For information on how to make a referral visit the parent information webpage. You can also access videos about First Steps and referral sources, developmental milestones, eligibility criteria, parental rights, and more.

You are not required to submit test scores.

Private schools do not report to the Department of Education.

Reach out to schools directly for more information.

Mission - We are a thriving school community offering children ages 15 months to 12 years an authentic, urban, Montessori education. Centered around the development of the whole child, the Montessori method instills personal responsibility, critical thinking, resilience, and respect for others, giving children a foundation for learning that will stay with them throughout their lifetime. At Montessori Lab School, we seek to cultivate a broad community of culturally and economically diverse families. Because we are believers in the strength of community, we offer continuous parent education and outreach programs so that more children and families can experience the Montessori method. The Lab School operates under the world-renowned Montessori Training Center of St. Louis, an internationally recognized affiliate of the Association Montessori Internatonale (AMI). Maria Montessori herself founded the organization to

continue the legacy of her vision while also continually innovating to increase the impact of authentic Montessori education.

The Leadership school is designed to empower little learners to become little leaders. The TLS cultural and instructional model equips students with the knowledge, skills and mindset to create lives of choice and opportunity. Students at TLS are empowered and inspired to pave their own path to success. Success looks different for everyone; building agency allows our students to create their own opportunities and choices in life. TLS students see themselves as change agents within the school, their communities, and the world.

About Us

OUR HISTORY

In 2003, compelled to help bright first-generation college students whose academic success was hindered by limited resources, Kim and Tony Thompson established the Kwame Foundation. Now 21 years later, the Foundation has established more than 30 endowed scholarships, while also supporting organizations that help to enhance the educational landscape within this region and throughout the United States.

Our Mission - 'More Hopeful Futures'

Today, as the philanthropic arm of Kwame Building Group, Inc., Kwame Charitable Foundation strives to change the trajectory of the lives of motivated young adults. College exposure and endowed scholarships are the primary avenues by which we remove barriers that can impede success. We look towards a future that is more hopeful for scholars who deserve of the opportunity to reach their full potential.
